

ANTHONY HEINRICHS

Full Stack Developer

ABOUT ME

After working with developers for 5 years, I realized I wanted to become one. I transitioned into this role because I like learning, working on amazing teams, solving problems, and seeing the result of my work first-hand. I recently finished the Le Wagon web development boot camp, and I am working on a Next.js project as I look for a position as a junior full stack developer.

CORE QUALIFICATIONS

Object-oriented Programming
Frontend Development
Backend Development
JIRA and Confluence Administration
Vendor and Client Relations

Agile Frameworks
Professional Scrum Master (PSM 1)
Stakeholder Management
English - Native
Deutsch - A1

EXPERIENCE

DIRECTOR OF OPERATIONS

Carepath Technologies GmbH | Berlin, Germany | October 2020 - June 2021

- Organized regular business events for individual and team growth, with the goal of improving team emotional intelligence and work fulfillment.
- Coached the team on recognizing and organizing highest business value tasks to ensure we are getting the right value faster.

PROJECT MANAGER

Carepath Technologies GmbH | Berlin, Germany | May 2020 - October 2020

- Introduced Agile with Scrum to development teams and taught core fundamentals of Agile for a strong Agile team start-up.
- Saved each developer 7 hours a week by administering JIRA projects, streamlining JIRA workflows, and replacing redundant meetings with proper scrum ceremonies.
- Coached Directors on the values of agile.

IT BUSINESS SYSTEMS ANALYST

GoodLife Fitness Centres Inc. | London, Canada | July 2017 - October 2019

- Facilitated scrum activities with cross functional development teams in an Agile environment and collaborated with technical architects, developers, and company executives to remove team impediments.
- Clarified the business requirements and needs to the development teams.
- Worked with all teams through cross-collaboration to make adjustments to our product requirements, allowing the team to save over 800 development hours on our internal accounting system project.
